

Anti-Bullying Assembly Proposal

For: Elementary Schools, Grades K-6

Purpose: Educational

Length of Performance: 40-45 Minutes

Assembly Description:

This program of magic with a message is designed to help students realize that although each of us may be unique on the outside, we all feel the same on the inside and have the same basic need for acceptance and respect. Over 160,000 kids EACH DAY skip school because of issues with bullying.

Through interesting and cutting edge magic, Michael presents a funny, fast paced, interactive and entertaining program that will also *educate on the growing issue of bullying* and teach them how to find the HERO inside of them in order to stop it. Michael weaves amazing magic, live animals, comedy and lots of fun into a message that educates and informs children *without* overwhelming them.

Subjects covered in this program include:

- What is a bully?
- Am I a bully?
- How can I prevent bullying?
- Damages caused from bullying.
- Learn how to become a HERO that stands up to bullying.

Character development topics included in this program are the standards of Respect, Responsibility and Encouragement. The W.I.T.S. message is also included in the performance as well.

The show has a very modern look and feel to it; forget about tails, top hats and abracadabra, this is a magic show that will create a buzz within your school and something the students will remember for years to come. The show can be presented with audience size up to 600 students.

The EARLY BIRD cost of the performance is \$299.00 + HST. Everything is provided – speakers, microphone, tables and the magic! Additional savings if you bulk book with other schools in your area. We are accepting bookings for the rest of the 2017-18 school year and would love to be in your calendar.

If you have any questions at all, please do not hesitate to ask.

Thank you for your interest in the show.
